

Enforcement November 2009:

**Respondent:**

Maquire Pest Control  
P.O. Box 684  
Claymont, DE 19703

**Violations:**

§ 1224(a) (1) used and applied a pesticide inconsistent with the label directions.

§ 1224 (c) (2) neglected to keep and maintain required records.

**Penalty:**

The Respondent signed a consent agreement dated July 13, 2009 agreeing to pay a civil penalty of \$1092.00 and to abide by the Delaware Pesticide Law.

**Summary:**

The Respondent's applicator applied a termiticide to water-saturated soil. The termiticide label prohibited use while water-saturated or frozen soil conditions exist. The applicator recorded incorrect information (dilution rate and amount applied) on two Respondent's pesticide application records. Respondent has re-trained the applicators to recognize saturated soil condition and to record the proper dilution rates and amount used.
